Charles-Town, May 4*th*, 1765.

AS the time I have undertaken to inſpect INDICO for ſale in this town, at *one per cent.* expired the 25th of March paſt; it is neceſſary I ſhould acquaint the public, that it will not hereafter ſuit me to do the ſame for leſs than *two dollars* per hundred; and that, for ſorting, garbling and ſealing Indico, from thoſe whoſe names are not in my regiſter for the three laſt crops, I ſhall expect *five per cent.* on invoice, provided they ſignify their intention to employ me, before the 20th of July next, accompanied with a *ten pounds* bill.

If after this offer, any ſhould have reaſon to complain that their Indico, ſent home without my ſeal and certificate, is a drug there, they muſt blame themſelves for preſuming it would be otherwiſe.

At the ſame time, I would adviſe all perſons who have Indico damped or purpoſely wetted, or who jumble the 1ſt, 2d and 3d ſorts together, in order to impoſe on purchaſers, not to offer the ſame for my inſpection; as I am determined always to publiſh my opinion of ſuch parcels, with the names of the makers, or venders, in the very next gazette, to prevent its being any longer thought at home that, by my ſilence, I am *the father of*, or countenance, *all the iniquitous practices which have been committed with Carolina indico.*

MOSES LINDO, Inſpector-General of Indico.

JOSEPH HUTCHINS, Factor,

HAVING been informed, that the co-partner of a late SOLICITED FACTOR, has *ſolicited* ſome of his country friends for their cuſtom, and inſinuated that he had dropt, or was about to decline, the Factors Buſineſs: He thinks it proper to acquaint all his friends, particularly *thoſe in the country*, that ſuch *inſinuations* are ABSOLUTELY FALSE; that he ſtill does, and intends to, carry on the FACTORAGE BUSINESS *in all its branches*, as he heretofore has done, and that he will continue to exert his utmoſt endeavours for his employers intereſt.

At the ſame time, he begs leave to return his thanks to all who have hitherto favoured him with their commands; and as he is a piece of a ſeaman, and always looked upon *plain ſailing* to be the eaſieſt and ſureſt in navigation, *ſo in life*, or the buſineſs of it, he would adviſe the *ſoliciting* gentleman to *ſteer a more ſteady courſe* in future.

LONDON, JANUARY 12.

IT is now ſaid, the French court have declared publicly their intentions, to effect ſome new ſettlements on the coaſt of Guinea, for the purpoſes of trade, but in ſuch places as ſhall not in the leaſt interfere with any European poſſeſſions in Africa.—Their late proceedings however, in erecting a fort in the river Gambia, appears to correſpond but very little with ſuch ſpecious declarations.

There was a very large aſſembly preſent, among whom were ſeveral perſons of diſtinction, many eminent merchants, phyſicians, &c. and ſome capital diſtillers, that attended the whole experiment. Every perſon preſent acknowledged the water to be very freſh and extremely ſoft and pleaſant. The advantage the public will derive from this diſcovery, is very obvious; for what can be of ſo much benefit to a commercial ſtate, as a conſtant ſupply of freſh and wholeſome water, for her ſailors?

It will be debated, we hear, in a great aſſembly, ſome time next month, whether it would not be expedient to purchaſe all proprietary governments in America, and annex them to the crown.

Extract from VOLTAIRE, *concerning* FRANCE.

"I am willing to allow you, my countrymen, that your country is the firſt in the world; and yet you do not poſſeſs the largeſt dominion in the malleſt of the four quarters of the earth. Conſider that Spain, Germany, Poland, and Sweden are bigger, and that there are provinces in Ruſſia of which your country would not make a fourth part.

"I wiſh your country may prove the firſt in the world for fertility of ſoil; but for God's ſake think of your forty leagues of lands towards Bourdeaux; of that part of your Champagne to which you have given the noble appellation of the Louſy; of whole provinces where the inhabitants live intirely on cheſnuts; and of others where there is no bread to be had but rye; your prohibition of the exportation of Corn is founded on your want."

"Firſt people of the earth! conſider that you have in your kingdom of France, about two millions of inhabitants, who walk in wooden ſhoes during ſix months of the year, and who go barefoot during the remaining ſix.

"You, the firſt people of the earth! conſider your commerce and maritime glory, as well as your royal revenue, which paſſes through fifty ſtrainers before it arrives at the Treaſury; where 4 5ths of it is loſt.

"I ſhould be glad you would ſhew in your behaviour and in your books, a little more reſpect for your neighbours.

It was yeſterday morning reported, that ſome conceſſions lately received on the part of France, were likely to accommodate matters amicably between the two crowns on the coaſt of Africa.

It is confidently ſaid, the ſuppreſſion of Vice-Admiralty courts in the Britiſh provinces of America, is now under conſideration.

It is ſaid the waſte lands in England only, from a late moderate computation, are found to exceed three millions of ſquare acres, actually improveable.

MARCH 25.

Letters from Rome mention, that Mr. Wilkes had not been twenty four hours in that city before it was known he had bills of credit on ſome of the principal bankers there, to the amount of two thouſand pounds ſterling.

From Paris they write, that the new tragedy of the ſiege of Calais, wrote by M. de Belloi, has run twenty nights ſucceſſively, and met with great applauſe. It has ſo pleaſed the king and royal family, that his Majeſty has given the author a purſe of 200 Louis d'ors. M. de Belloi is the firſt French author who has ever attempted to take the ſubject of his drama from their own hiſtory.

Yeſterday the following bills were ſigned by a commiſſion from his Majeſty viz.

The bill to puniſh mutiny and deſertion, and for the better payment of the army and their quarters.

The bill for better regulating his Majeſty's marine forces when on ſhore.

The bill to allow the free importation of live cattle from Ireland for a limited time.

The bill to render more effectual an act for providing a public reward for diſcovering the longitude at ſea.

The bill *for laying certain ſtamp duties and other duties in the* AMERICAN *colonies; and for applying the monies ariſing therefrom for the ſupport and defence of the ſaid colonies.*

The bill to enable the commiſſioners for paving Weſtminſter, &c. to collect toll on Sundays, and to apply the money ariſing therefrom to the ſaid purpoſes.

And alſo to ſeveral private bills.

The Lords Commiſſioners who ſigned the bills yeſterday, were Lord Mansfield as Speaker, and the Earls Gower and Marchmont.

It is ſaid, that when the Iſle of Man is annexed to the crown, the government of it will be veſted in one of the royal family.

A letter from Kinſale ſays, "A few Iriſh rabble, called White-Boys, frighten ſome of our military beaux; and four or five ſtraggling Jeſuits have produced ſuch imaginary dangers on the ſpirits of ſome, as is ſtrange to behold. It is true, nine tenths of the lower claſs of inhabitants of this part of Ireland are papiſts; but ſince I have been among them, I never ſaw any thing that ſavoured of diſaffection, and if they were ever ſo, what could a poor, undiſciplined, almoſt ſtarved rabble do? Whatever therefore you hear from this country, relating to White-Boys, look upon it as greatly magnified by the fears of ſome timorous minds."

A woman who was but two feet eight inches high, and had never been able to walk without crutches, died at Liege the 9th ult. aged 100 years.

We hear the parliament will break up the beginning of May.

It is ſaid, that on Wedneſday morning diſpatches were ſent to the Right Hon. Mr. Pitt, at Hayes.

We are aſſured, that certain commercial conceſſions on the part of the court of Portugal in favour of the Britiſh merchants, have this week been ſtrenuouſly urged, in conſequence of divers petitions lately preſented to the board of trade.

A regency bill, it is ſaid, is now under conſideration.

It is confidently ſaid the re eſtabliſhment of the old Britiſh ſettlement, in the Gulph of Darien, will this ſummer be proſecuted, in conſequence of a commercial treaty now on the carpet with the court of Madrid.

It is now ſaid a bounty of ten ſhillings per ton, on all ſhipping in the whale fiſhery in the American ſeas, between the entrance of Hudſon's bay and Cape Florida, over and above that already paid on ſhips from Greenland, will be granted, in order to encourage this valuable branch of commerce.

We hear a ſcheme is now upon the carpet for introducing temporal dignities in North-America, and that the firſt diſtinction of this kind will be conferred upon Sir William Johnſon and General Gage.

An Iriſh Nobleman has, we hear, undertaken, for a wager of 1000 guineas, to produce a man that will go from London to Dublin, and back again in five days.

MARCH 26.

They write from Paris, that a farther bounty on indigo, the produce of the French ſettlements in America, has lately been reſolved on.

Private letters from Paris mention, that the friends of the count d'Eſtaing have ſo much influence at court, as not only to prevent his being recalled, but to obtain him freſh powers to continue in his government of St. Domingo.

They write from France, that when the laſt advices were received from Corſica, a report prevailed of the old general Paoli having taken upon himſelf the title of King of that iſland, ſaid to be on account of ſome unjuſtifiable ſteps taken by the Genoeſe to deprive him of his liberty, and that great numbers reſorted to Naboto, to join his ſtandard.

Laſt week notice was given to the gentlemen employ'd in the ſeveral departments in the ſtamp office, that a certain number would ſpeedily be wanted to embark for New-York, in order to eſtabliſh a ſtamp office in that province; when ſeveral voluntarily offered themſelves for that ſervice.

A letter from Quebec, dated Dec. 19. ſays, "General Murray intends early in the ſpring to fit out ſeveral ſmall veſſels to ſurvey Lake Superior, in order to find a communication with the ſea to the weſtward, which cannot be at any great diſtance, as the lake abounds with fine cod fiſh, for which a fiſhery may be in time carried on to great advantage, and, no doubt, will make one of the greateſt branches of commerce from this country. Mr. Brooks, our clergyman, and father Rabo, the Jeſuit, go on this expedition at his excellency's particular deſire, to make exact obſervations on the latitude and longitude of the lakes, and preach the Chriſtian religion to theſe unenlightened ſavages. We expect the Rev. Mr. Whitefield here next ſummer. Our governor intends making a road to communicate either with New-England or Nova Scotia.

We hear the ſums of money ariſing from the new ſtamp duties in North America, for the firſt five years, are chiefly to be applied towards making commodious poſt roads from one province to another, erecting bridges where neceſſary, and other public meaſures equally important.

We hear that the intended diviſion of his Majeſty's American dominions into northern and ſouthern diſtricts, will be determined by inſcriptional plates of braſs, obeliſks, which are ordered to be placed on the frontiers, after the manner of other European powers ſettled on the continent.

The Hon. Walter Murray, is appointed Receiver-General, Richard Murray, Eſq; Vendue-Maſter and Deputy-Receiver, and James Potts, Eſq; Judge of the Admiralty for the province of Quebec.

An eſtimate of the charge of maintaining and ſupporting the civil eſtabliſhment of the colony of Nova-Scotia, for the year 1765, is now before the Parliament.
